NOTICE ON GRANTING POLICY AND SCOPE OF FINANCIAL ASSISTANCE

The Equitable Education Fund (EEF) Thailand expresses its sincere appreciation to all domestic and international organizations, scholars, and advocates working toward the advancement of equitable education worldwide.

Please be advised that the EEF (Thailand) is an autonomous public agency established pursuant to the **Equitable Education Act B.E. 2561 (2018)**, operating under the supervision of the Prime Minister of the Kingdom of Thailand.

To ensure good governance, fiscal discipline, and adherence to state regulations:

1. Statutory Budget Allocation

The EEF (Thailand) operates under an annual public budget approved by the Cabinet and the National Assembly, bound by multi-year strategic operational plans reported to relevant governing authorities.

2. Designated Target Groups

All funds and financial mechanisms administered by the EEF (Thailand) are legally restricted to designated priority groups—specifically vulnerable children, youths, and learners facing extreme socioeconomic hardship within the Kingdom of Thailand.

3. Unsolicited Grant Proposals

The EEF (Thailand) is not an international grant-making foundation and does not maintain an open call for unsolicited individual or institutional grant applications. Consequently, our administration cannot award financial grants, institutional funding, or project subsidies to foreign entities, cross-border initiatives, or organizations operating outside our statutory jurisdiction.

Partnership and Collaboration

While direct grant disbursal to external international applicants is not legally permissible, the EEF (Thailand) remains actively committed to global knowledge-sharing, research exchange, technical cooperation, and policy dialogue with international counterparts who share our mission of leaving no learner behind.

We thank you for your kind understanding and your commitment to educational equity.
